ANSHIKA MATHUR

Lucknow, Uttar Pradesh | +91 8004088775 | anshikamathur726@gmail.com | Linkedin

Professional Summary

Ambitious and Inquisitive Computer Science and Engineering (Artificial Intelligence) student with a strong interest in software development and emerging technologies. Currently building projects that combine AI concepts with backend engineering to develop practical skills in AI, programming, web development, and backend technologies. Seeking an internship opportunity to contribute to real-world projects while continuing to grow as a developer.

Key Skills

- **Programming Languages:** HTML, CSS, JavaScript, Python, SQL, Data Structures and Algorithms (Java)
- **Frameworks & Libraries:** Tailwind CSS, Bootstrap, Node.js, Express.js
- **AI / Data:** AI/ML, NLP, Generative AI
- **Tools & Platforms:** VS Code, Git, GitHub, LeetCode

Education

- **B.Tech, Computer Science and Engineering (Artificial Intelligence)**

University of Lucknow, Lucknow | Aug 2024 - June 2028 | SGPA: 8.15 (V Semester)

- **Senior Secondary (Physics, Chemistry, Mathematics)**

CBSE Board, Dayawati Modi Public School, Rae Bareli | June 2024 | Percentage: 70%

- **Secondary (Science)**

CBSE Board, Dayawati Modi Public School, Rae Bareli | June 2022 | Percentage: 75%

Certifications

- Web development course, **Apna College**
- Data structures and Algorithm(Java), **Apna College**
- Participation in **Smart India Hackathon (SIH)**, Project: Python Stunners
- Virtual Internship at **Codsoft** in which Intern as Artificial Intelligence
- Cybersecurity Analyst Job Simulation, Tata, via Forage - Certificate of Completion, July 30, 2025
- GenAI Powered Data Analytics Job Simulation, Tata, via Forage - Certificate of Completion, July 30, 2025
- Cyber Job Simulation, Deloitte, via Forage - Certificate of Completion, August 2, 20

Projects And Internship

Simon Says Game(Mini Project) HTML |CSS|JavaScript

- Built an interactive browser-based memory game that generates randomizer color/sound sequences for players.
- Used **CSS** for responsive styling, button animation, visual feedback, and an engaging interface.
- Added **real- time tracking** to monitor the player's current level and performance throughout each game session.
- Implemented **high score persistence** using **local storage,** allowing the highest score to remain saved even after refreshing or reopening the browser.

Airbnb-Style Property Booking Platform | MERN Stack

- Developed a full-stack property rental platform using **MongoDD** for storing user, property, review, and booking data with scalable database management.
- Built dynamic and responsive frontend interfaces using **React.js** , enabling reusable components, interactive property listings, search, filters, and booking workflows.
- Implemented **Node.js** as the backend runtime to handle server-side operations, API requests, authentication, and application logic.
- Designed **RESTful APIs** with **Express.js** for user authentication, property CRUD operations, reviews, ratings, and booking management.
- Integrated **JWT/Session-based authentication** to provide secure login/signup and role-based access to protected features.
- Added **search & filtering, reviews and ratings, and booking/reservation functionality** to provide an end-to-end property rental experience.

Artificial Intelligence Intern — CodSoft | May 2026 – Jun 2026 | Github

- Developed a Python-based **Tic-Tac-Toe** game implementing an AI opponent using the **Minimax algorithm** for optimal decision making.
- Designed game logic for move validation, win/draw detection, turn management, and game-state evaluation using Python.
- Built a command-line interactive interface enabling real-time gameplay between a human player and the AI opponent

Languages

English, Hindi

Hobbies and Interests

Coding and programming, Reading Fiction, Dancing, Travelling

Declaration

I hereby declare that the above-mentioned information is correct to the best of my knowledge, and I bear the responsibility for the correctness of the above-mentioned.
